Solutions Catalogue
3rd Edition**

MD's Message

The Office Furniture market is no exception to the difficult trading conditions which confront almost every sector of The South African Economy. In spite the adverse conditions Forms Media has shown strong growth year on year over the decade that we have competed in the Office Furniture market. Today we are recognised as a significant supplier to the commercial and educational sector of the market.

The cornerstone of our growth and future growth has without doubt been Consistency and Honesty.

Consistency in our dealings with suppliers that enable us to bring quality well priced products to the market; products that we are able to guarantee against faulty workmanship and poor quality materials.

Honesty in our dealings with our clients, leading to an intense desire to meet their expectations of us, as their trusted supplier. Our clients insist on a high degree of professionalism, product knowledge, skill, planning and presentation.

In order to stay abreast of the division's growth we have upskilled our existing staff and have employed additional specialists in the Office Furniture sector throughout the country.

As we launch our third edition catalogue we as a committed South African company are confronted with a number of challenges with the disinvestment in local manufacturing we have taken the decision to include wherever possible quality South African products that meet our standards.

The catalogue has been expanded in every category of product offering, ranges that have been more defined to assist with product selection. While the offering is both extensive and detailed we are able to offer a range of..... Made to order office furniture products. As always we offer free to our client's space planning, layout and design, and consultation. The catalogue is available in both printed and electronic format. We believe that this publication confirms once again our commitment to..... **The Total Office Solution.**

Some usefull tips when purchasing office furniture

- You should purchase furniture that is both attractive and suited to your work environment, while being functional, and projecting the image of your organization.
- Choose colours that uplift the general "mood" of the workplace, the colour of your office furniture plays a crucial role in the overall mood in the workplace. Bright colours tend to cheer up staff creating a better and happier working environment which ultimately leads to greater productivity.
- Choose quality office furniture, with the emphasis on durability, functionality and ergonomically correct.
- When purchasing office furniture, space planning and the correct usage of available space is vitally important. Overcrowding and cramped workspace leads to poor productivity.
- Attention must be paid to dimensions, colours, textures and work surfaces
- Avoid buying office furniture without prior planning, buying office furniture is a capital investment in your business and an investment in the wellbeing of your staff.
- Particular attention should be paid to the storage and preservation of documents, an inventory of existing storage facilities is essential and the new furniture should make provision for future organizational growth.
- Avoid choosing office furniture that is solely based on trends, rather choose furniture that is functional and comfortable, Simple yet elegant office furniture will always add to the ambience and style of your offices.
- Exercise caution when choosing fabrics for chairs, soft seating and screens for your offices. When choosing fabrics, consider that the fabric needs to compliment and be practical for the organizations working environment it must be durable and easy to clean.

SEMI-ACTIVE FILING / HI-DENSITY

What floorspace do you have?

NOTE:

- Sizes above - calculated using 400mm deep units
- 900mm units are also available but cannot be used with pull-out components.
- Tandem Bays (2,3,4 etc. Wide) are available in all combination of bays i.e. 2,3,4,5,6 etc. bays.
- Infinite possibilities are available dependent on floor space.

Why consider Hi-Density?

- It allows the user to make use of vertical height - costly floorspace is maximised.
- Allows the user a myriad of internal component combinations dependent on the storage application.
- Internal components can be simply adjusted at any time making use of multiple setting options on the side of the cabinet.
- A variety of finish options are available to enhance the overall aesthetic of the area in which the cabinets are being installed.
